---

Hello everyone,

The road project was supposed to start last week, we were waiting on Dig Safe, so it was looking good to start today, but we discovered that Dig Safe marked the wrong area, so we have asked them to come back out as soon as possible.

Jim is in touch with them, and he is hoping to get started on Friday or Monday.

The paving company has communicated to us that they are ready to go when the excavation work is completed.

More updates to follow.....

The board would also like to let everyone know that, if you would like to leave your kayak or paddle board on the racks at the beach, that is your choice, you can leave it down there if you like, we just ask that you be sure it is on a rack and not on the ground.

As for the sheds, it is suggested that you take your stuff out, but if you have something that will not get eaten by the mice that live in there in the Winter, we will not throw it out. We will however, throw out any towels or clothing that is a certain target for the mice.

Thank you,  
-CTEA BoD
